THOUD FATHER AND HIS FAMILY—Paul-Smile Tremblay, of Le Valin, Que., proudly holds the sixth set of twins born to his 20-year-old wife in less than eight years. The twins, named Christine and Christiane, weighed more than seven pounds each at birth, and are both reported to be doing well. Left to right, rear, are Mr. Tremblay and new brother Raymond, whose twin died; Camille, Françoise and Francine. Front row, are Jules and Julien; Ronald and Ronald, Jeannette and Jacques.

CANADA'S FIS TEAM IN NEW TOGGERY—Meet some of standard bearers who will represent Canada at Sweden and get a crack at world championship honors. Left to right: Ann Hagglund, Ottawa, a long-sleeved with a lot of racing class; Bill Stevens, Montreal, B.C.; Peter Kirby, St. John's; Ernie McCulloch (center); Mont Tremblay; Art Tommy, Ottawa; Fritz Galt, Mont. Teller, who has been assisting in the coaching. He will not go overseas. Ernie is considered the hottest racer in Canada and an ideal team pilot. The team is wearing the newly designed uniform of market and white with protecting lining for all types of weather. The new crest is similar to the Olympic design.

TOWERS OF DUQUERRE—Jim Tucker, (left), and Dick Ricketta, stars of the Duquesne University quintet, reach up and drop the basketball in the basket during a recent practice session in New York City. Both Tucker, a center, and Ricketta, a forward, tower 6 feet, 7 1/2 inches.

MONKEY SHINES AS PAINTER—This two-year-old chimpanzee, one of the more talented residents at the Baltimore Zoo, is a devotee of finger painting and is turning out some pretty exciting color studies. The style is primitive, naturally. A psychologist says the chimp shows the same tendency in selecting bright colors as the average child, and seems to have the same knack of getting the paint all over itself.

TRAPPED—Jacky Takahashi, a Lodi, California, toddler, recently spent several unhappy moments in a 10-inch water pipe before being freed. To effect the rescue, Fire Inspector Forrest Kapperson and Police Officer Charles Westland, (right), had to dig around the pipe and lift it over her head. She became trapped while playing in a house under construction.

France has issued new airmail stamps featuring French planes.

REASON TO SING—Mrs. Time Alton, an Italian radio singer, claims she is to inherit 30 million dollars in platinum, gold and coal mines in Columbia, South America. The fabulous inheritance was left by her uncle, the singer says.

WANT A DATE?—Lovely Mary Lou climbs a date tree to help during the winter harvest of dates and citrus fruit in Tucson, Ariz. She plays it cool and gains a suntan at the same time.

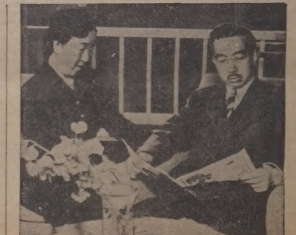

SOLE SUPPORT—A bad case of Italian nerves could put the aside to this Italian circus formation in Rome. One man is supporting eight others. Count 'em.

CROWNED KING AND QUEEN—Bobby Michele, six, plants a kiss on the cheek of Adele Ponderstein, four, after they were crowned King and Queen of the 1954 Cook County March of Dimes polo campaign in Chicago. The little polo victims were presented with crowns made from crumpled dollar bills, studded with shiny dimes, symbolizing the Dime's slogan: "Join the March of Dimes with Dollars."

RECENT NEW STAMP ISSUES include (top, left to right), Canada's new 50-cent stamp, featuring the textile industry; Bolivian's child welfare pictorial featuring insects; and Bermuda's stamp for the recent British-French-U.S.A. conference. New bird stamps of Liberia have been issued in diamond and triangular shapes (lower, left to right).

RELAXING RULERS—Like many an American businessman, Emperor Hirohito of Japan relaxes after work by chatting with his wife, Empress Nagako, and reading a paper. The royal pair are shown above at Hayama Imperial Villa in Tokyo.

MOVED TO TEARS—Constables Charles White and Les Halstead, of Hamilton, Ont., were moved to tears by a real sob story. And they weren't the only ones. The entire police force burst into tears when a tear gas bomb was recently let off by mistake in the garage at Central Police Station. The bomb was let off by a mechanic who mistook it for a signal flare.

VACUUMING THE TRACKS—This complex contraption is a railroad sweeper. It's used to clean and refurbish the roadbed. The overcast vacuum, which travels on a derrick, carries off dirt and waste materials on the conveyor belt at the rear.
